Project
Refuse Disposal Impact Analysis

Allen & Major Associates Inc. (A&M) is providing this summary regarding the potential impacts on the project generated impacts on the Town of Wellesley refuse disposal program.

Currently, the club utilizes private haulers to remove solid waste from club property. The waste is then brought to a licensed disposal facility. This process will not be altered as a result of this project. The club will continue to collect and safely remove solid waste and should not have an impact on the Wellesley Recycling and Disposal Facility (RDF). The club continues to separate recyclables for pick up.
