North 40 update

Hans explained not a lot of definitive news other than WC RFP due date is Friday Oct 3rd and Town plans to respond. Specifics were not shareable. Various public sessions have been held soliciting input from the Town but no specific use plans exist.

Progress toward STM

The subgroups reported back the amounts needed for the motions. The BoS is still debating how the motions will be organized by the dollars needed for more planning including the aquatic study is \$140k. The remediation expense is estimated at around \$780k. In addition the group saw the first draft of a write-up for advisory and agreed to read and make comments on it over the next few weeks. A date to review 900 W with Advisory has not been set yet.

Paul Cleary from Sandwich

Paul Cleary updated the group on their work in Sandwich to develop a commercial/recreational multi-use project. The discussion was interesting but the small size of the 900 Worcester St property makes their model less directly relevant.

Next Meeting:

The next meeting is scheduled for October 2nd at 7pm at Warren to review STM requirements and North 40.

Motion: To adjourn by Mark
Seconded: By Deb
Vote: All in favor

Meeting adjourned at 9:34 pm.

Respectfully Submitted,

Andrew Wrobel
