

# GARBOLOGY 101: Talking Trash with the Wellesley Recycling and Disposal Facility

Wednesday,  
February 11,  
9:00 to 11:00 am

## **FREE Public Workshop at the Department of Public Works Training Room, 20 Municipal Way**

From cardboard to hazardous waste, about 14,000 tons of material passed through the Wellesley RDF in 2014. Come for a behind-the-scenes look at the recyclables, reusables, and just plain trash that the RDF handles with care. At this two-hour workshop, you'll learn how the RDF managers find gold in our garbage—and you'll hear what lies ahead for Wellesley's 42-year-old facility. Optional tour of the RDF after the workshop (weather permitting).

*Sponsored by the Wellesley Department of Public Works,  
Natural Resources Commission, and Sustainable Energy Committee.  
This workshop is the first step in a collaborative process to identify initiatives  
that will increase recycling in Wellesley and make our RDF even better.*
