

Roundup® Weed & Grass Killer Super Concentrate

- **Active Ingredients**

50.2% Glyphosate

- *** Overview & Benefits**

- Kills the toughest weeds and grasses.
- Absorbs through the leaf and stem only so killing power won't spread to non-target plants through soil.
- Roundup® Weed & Grass Killer Super Concentrate is the best value for really widespread weed problems.
- Ideal for larger projects.

- **Where to Use**

Can be used in and around vegetable gardens. Also use in and around fences, trees, driveways and flower beds. Can be used to treat stumps and prevent regrowth. Use for lawn renovation but do not use to spot treat in lawn since glyphosate kills lawn grasses

- **Special Instructions**

It is not active in the soil. All ornamental flowers, trees and shrubs may be planted one day after application. Glyphosate targets an enzyme found in plants but not people or pets

- **Benefits**

The best Roundup® brand concentrate value. Kills weeds to the root so they don't come back. Can be used to treat stumps and prevent regrowth. Rainproof protection in 30 minutes. Can be used in and around vegetable gardens and for treating large areas.
