

WELLESLEY MUNICIPAL LIGHT PLANT

MEMO

To: Meghan C. Jop, Planning Director, Planning Board
Michael Grant, Inspector of Buildings, Building Department
Town Hall, 525 Washington Street
Wellesley, MA 02482

From: Francisco A. Frias 
WMLP Supervisory Electrical Engineer

Date: December 6, 2012

Subject: Project of Significant Impact PSI-012-1
300 Wellesley Avenue - Wellesley Country Club
Maintenance Facility and Comfort Station

The Municipal Light Plant ("MLP") has reviewed the documents provided for this project and has also met with some of the consultants working for Wellesley Country Club to make sure a better understanding of the electric services, needed for the upgrades, was obtained. The electrical infrastructure around Wellesley Country Club has adequate capacity to support the proposed electric services, but it is advised that both parties continue to work closely together to make sure the outcome of the project is satisfactory.

If you have any questions or need clarifications please feel free to contact me at 781-235-7600 x3381.

Cc: Donald H. Newell, MLP Superintendent
