

Board of Selectmen Site Visit: June 18, 2015
Present: Searle, Gibbs, Freiman, Morgan
Also Present: Jop, Connolly, Pilecki, Pakstis, Hickey
Minutes Approved: June 29, 2015

1. Brook Street/Benvenue Street/ Radcliffe Road

At 11:00 am, the Board, staff, Deputy Chief Pilecki, DPW Director Mike Pakstis, and Town Engineer David Hickey met on site at the Brook Street/ Benvenue Street/Radcliffe Road island to better understand the Traffic Committee's recommendations from the June 1, 2015 meeting to reconfigure the intersection. The Town Engineer had marked on the roadway surface the proposed modifications in paint for the Board to review. While onsite two residents Mr. Robert Smith of 70 Radcliffe Road and Mr. Fred Nitschelm joined the Board and expressed their continued concerns with the modifications to the intersection. Ms. Searle noted the Board is only present to witness the traffic flow through the intersection and to better understand the most recent proposal. The Board will hold additional public meetings on the proposed design in September prior to making any final decisions. The Board asked questions with regards to the light poles, impact to abutting properties, and sidewalks. The site visit concluded at 12:00 pm.
