Introduction to 110 Safety Inspections

1. The Massachusetts State Building Code section and table 110 states which uses need 110 Safety Inspections. When opening a new business you must consider if you to need a Certificate of Inspections and when they are due.
2. If determined that a 110 Certificate of Inspection is required then contact the Wellesley Building Department for an application, certificate # and the fee amount.
3. The application must be completed in full; any omissions will cause denial of application.

Any questions please contact the Wellesley Building Department or visit our website and click on the Certificate of Inspection link in the additional links section.
