Green Wellesley Campaign

Invites You to a Program on

Healthy Lawns & Sustainability

Wednesday, October 3, 2012

7:00 PM

Wellesley Free Library

PROTECT YOUR FAMILY'S HEALTH and the TOWN'S WATER SUPPLY by never using toxic pesticides or fertilizers on your lawn again and still have a beautiful green lawn.

Come to this exciting educational program with NEW information about making your home or business healthier, sustainable and more water and energy efficient. Learn how to save time and money and protect our environment by growing a very low maintenance, environmentally safe organic lawn. Come hear about what the Town is doing to help create a sustainable community and help prevent global warming. Presentation by Jackson Madnick, environmental expert, recipient of the "Regional Environmental Hero" Award and commended by Al Gore.
