General Information

The Charles River Link is a regional trail connecting two major trails in Boston MetroWest - The Bay Circuit Trail in Medfield and the future extension of the Charles River Reservation Path in Newton to Wellesley. It provides a trail along one of the most scenic parts of the Charles River, a linkage between open space and conservation reservations along the river, and eventually a connection between the Bay Circuit Trail and downtown Boston.

Length: 16.5 miles
Connected Towns: 6
Off Road: 11.4 miles (69%)
Touches the Charles: 5 times
Highest Elevation: 410 feet (Pegan Hill)
Lowest Elevation: 50 feet (Cordingly Dam)
Google Maps: Use link on website to view trail route

Trail markers are 4" circular disks mounted on trees, trail posts, telephone poles, and street sign posts. An evergreen tree serves as an arrow to indicate direction of travel. Turns are marked before or at a trail intersection and with a confirmation marker after the turn.

The trail route is through suburban towns, and users are asked to stay on the trail. If you wander off trail, you may enter private property and jeopardize future trail usage. Portions of the trail, as indicated in the trail description, have restrictions where dogs and/or bikes are not permitted. Please abide by these restrictions.

Practice good trail usage and etiquette. In all open space and conservation land, no motorized vehicles, littering, dumping, camping, fires, or alcoholic beverages are permitted. Off-road trails are closed dusk to dawn. Do not feed, approach or touch wildlife, including waterfowl. Use protection against ticks and mosquito bites. If trails are muddy, limit bike usage. And lastly, please pick up after your dog and properly dispose of the waste. Thanks for your cooperation!
