

# WELLESLEY MUNICIPAL LIGHT PLANT

## ELECTRIC RATE SCHEDULE

### VOLUNTARY RENEWABLE ENERGY PURCHASE

Rate Schedule VRP-3

MA DPU #11-11

#### AVAILABILITY

The voluntary purchase of all, or a pre-determined portion, of the customer's monthly energy is available to all Wellesley Municipal Light Plant ("WMLP") residential, municipal and commercial customers.

#### MONTHLY RATES

Customers may elect to purchase all, or a portion of their energy from renewable sources by selecting one of the following four options:

Percentage Desired	Additional Kilowatt-Hour Charge
10%	\$0.0040
25%	\$0.0100
50%	\$0.0200
100%	\$0.0400

#### BILLING KILOWATT-HOURS ("kWh")

The Voluntary Renewable Energy Purchase will be calculated by multiplying the customer's monthly metered kWh consumption by the additional charge based on the percentage selected. At the end of each calendar year the WMLP will estimate the cost of its renewable energy purchase and refund any amounts in which the above "additional kilowatt-hour charge" exceeds the estimated renewable cost for the year.

#### RENEWABLE PURCHASES

The WMLP will purchase renewable energy by directly investing in specific projects, entering into long-term purchase power agreements or by making bilateral purchases. The WMLP's renewable energy may include the purchase of Renewable Energy Certificates ("REC") and/or a combination of energy and REC purchases.

#### TERM OF CONTRACT

Either the customer or the WMLP may terminate the voluntary purchase of renewable energy at any time. The WMLP can terminate this program by giving 30-day written notice to all active participants. Customers can elect to discontinue their voluntary participation by providing written or verbal notice to the WMLP.
