

June 3, 2019

Lenore Mahoney  
Executive Secretary  
Zoning Board Of Appeals

Subject – 3 Burke Lane Sixteen Apartment Project.

I wish to raise the concerns of the Miller family regarding the proposed construction of the sixteen apartments at 3 Burke Lane Wellesley Massachusetts.

Since 1958 Ann and Gordon Miller have lived at 150 Cedar Street Wellesley Massachusetts. Their home a two story ranch borders the entire western side of the proposed project. Their home sits at a higher elevation, approximation fifteen feet above the grade of 3 Burke Lane. The view from the second story window of 150 Cedar Street looks directly down on the property at 3 Burke Lane.

The project has deeply concerned us since finding out about the large scale of the proposed project. It was the first subject brought up by father on our daily conservations. Our father was deeply troubled how the project would effect the love of his life of sixty five years. Our mother who suffers from dementia, a disease that where any variation of her environment creates confusion and anxiety to her. This so troubled my father that it led to a serious deterioration of his health, passing away on March 17,2019. Eighteen days shy of what would have been his ninety fifth birthday and two months short of what would have been their sixty fifth wedding anniversary.

The magnitude of this proposed project will certainly take a very long time to complete. With the daily activity and noise of such a project having a detrimental effect upon the quality of life of our mother.

Thank you,  
The Miller Family
