Subject: 3 Burke Lane 40B Project

Hi Lenore,

We have reviewed the revised set of plans for 3 Burke Lane 40B project submitted by Hayes Engineering, Inc. of Wakefield, MA. The applicant's engineer has addressed our questions as shown on revised plans dated 7/24/2019. The only issue outstanding is that the plan elevations must be shown on the Town of Wellesley benchmark system and not NAVD 88. We have this requirement for every project that comes through not only ZBA but Planning and DPW. They should be required to make the change so that the elevations fit into the Town's datum.

Thank you,

George

George J. Saraceno, CSM, ENV SP

Senior Civil Engineer
