

# The NEW Water Customer Portal is now available!

*Track Your Water Use, Lower Your Water Bill, and Reduce Greenhouse Gas Emissions*

Wellesley's Department of Public Works Water Division is making it easy for its customers to make wise water choices. Simply visit <https://acewebsite.silverblaze.com/TownOfWellesley> and activate your account in the Water Customer Portal. Use the Portal to access your historical water use data, current water usage details, and information to help you identify leaks in the home. Efficient water use is good for your wallet and good for Wellesley's natural resources.

The Water Customer Portal makes it easy to be a smart water user by allowing you to:

- Compare your hourly, daily, and monthly historical use.
- Identify ways to reduce your use and save on your bill.
- Sign up to receive notifications of high water use and potential leaks.
- Create a profile for your home or small business that can help you understand your energy and water usage and provide better recommendations for reducing your usage and saving money.
