

## Wellesley Town-Wide Pickleball Study

### Introduction

The Town of Wellesley is conducting a survey of residents to get a better understanding of the community concerns about pickleball courts. Concerns include pickleball players' desire for more courts in Wellesley, existing courts too close to homes creating unwanted sound, lessening tennis court capacity to provide for pickleball, and environmental concerns to the extent pickleball affects the enjoyment of passive areas, natural habitat and wildlife.

We are asking for input to help us understand all concerns from both proponents and opponents of outdoor pickleball courts in Wellesley.

Thank you for participating! The survey should take approximately 6 minutes to complete.
