

# **WELLESLEY MUNICIPAL LIGHT PLANT**

## **ELECTRIC RATE SCHEDULE**

### **Residential Service and Small General Service Rider – Solar Net Metering Rate Schedule SP-1 MA DPU #24-2**

The Wellesley Municipal Light Plant (WMLP) shall pay for energy delivered to the WMLP's electric system from eligible, small scale solar (photovoltaic) systems that generate electric power.

#### **AVAILABILITY**

Service under this rate schedule is available throughout the entire territory served by the WMLP's electric system for only those customers being served under the RS-1 Residential Service or SGS-1 Small General Service rate schedule, served by a single meter, and have a solar generation system (e.g., rooftop solar system) approved for operation by the WMLP.

#### **APPLICABILITY**

This rate schedule is applicable to all small-scale solar generation facilities with a net output of equal to or less than fifteen (15) kilowatts of alternating current (kW-AC) capacity as determined by the WMLP.

#### **RATES and CREDITS**

At the end of each monthly billing period, the WMLP registers and records the net amount of electric energy purchased by a Customer from the WMLP. In the event a Customer delivered more energy to the WMLP's electric system than purchased from the WMLP (i.e., net negative monthly reading), the WMLP shall credit the Customer based on the Real Time locational marginal price (RT-LMP) per kilowatt hour (kWh) for wholesale power purchased from the ISO - New England that is most applicable to Wellesley (e.g., Northeast MA/Boston). For each monthly billing date, the WMLP shall calculate and apply the average of the hourly RT-LMP prices between the hours of 0900 and 1600 from the preceding calendar month.

#### **TERM**

The credit for excess generation will be applied to the customer's account each month.

#### **EFFECTIVE DATE**

The effective date of this Net Metering Rate is July 8, 2024, for applicable solar system installations that are granted Approval to Operate by the WMLP after July 8, 2024. The customer shall notify the WMLP of any defects, troubles or accidents which may in any way affect the delivery of electric service by the WMLP from the WMLP System.

#### **TERM OF CONTRACT**

Service under this rate schedule is subject to termination at any time upon WMLP's receipt of written notice from the customer, subject to the provisions of the WMLP's Terms and Conditions for Electric Service.
