

**This rebate application must be submitted within six (6) months of equipment purchase or weatherization installation.**

For each rebate, please upload a copy or photo of your **sales receipt or invoice** that must clearly show the:

- purchase date and price;
- store or contractor name; and
- equipment brand/manufacturer and model number(s), except for the weatherization rebate.

If a contractor's invoice is being provided for a rebate other than weatherization, it must clearly show the equipment information and cost separately (from the installation and other costs).

For the heat pump clothes dryer and heat pump water heater rebates, please also upload a copy or photo of the **EnergyGuide label** showing the EnergyStar® logo.

WMLP rebate will not include any sales tax paid, installation costs (except for weatherization), and exceed the purchase price.

**NOTE:** New construction projects are ineligible for WMLP rebates, including new additions and major or gut renovations where the equipment is needed to comply with the current building code.

**Wellesley residents who are customers of National Grid are not eligible for WMLP rebates for heat pumps, heat pump water heaters, weatherization, or induction cooktops/stoves.** Please refer to the equipment rebate below that you are applying for and the MassSave® [rebate webpage](#).

---

## **Heat Pumps**

WMLP customers who primarily heat their homes with natural gas (i.e., customers of National Grid) are not eligible for WMLP heat pump rebates and must get their rebate from Mass Save®.

For customers who primarily heat with oil, electricity or propane, please visit <https://wellesleyma.gov/1641/Heat-Pump-Program> for information about the WMLP's rebate application process.

---

## **Heat Pump Clothes Dryer**

EnergyStar® certified heat pump clothes dryers only.

Limit - 1 rebate per customer account every 10 calendar years

### **HP Clothes Dryer Rebate**

- \$100 per EnergyStar® certified HP clothes dryer
- 

## **Heat Pump Water Heater**

EnergyStar® certified heat pump water heaters only.

Limit - 1 rebate per customer account every 10 calendar years

### **HP Water Heater Rebate - Choose One**

- \$250 per EnergyStar® certified HP water heater - if replacing electric
- \$500 per EnergyStar® certified HP water heater - if replacing oil or propane

\*National Grid customers who are replacing their gas water heaters are not eligible for this WMLP rebate and should instead get their rebate from MassSave®.

---

## **Weatherization (Air Sealing & Insulation)**

New construction and gut or major renovations are not eligible for weatherization rebates. Two levels of rebate are available, depending on whether your weatherization is part of a whole home heat pump installation or not.

Limit - 1 rebate per customer account per calendar year

### **Weatherization Rebate - Choose One**

- 75% of total project cost up to \$2,000
- 75% of total project cost up to \$3,000 (if weatherization is completed within 6 months of installing a qualifying whole-home heat pump system)

### **For which weatherization service(s) are you applying for a rebate?\***

- Insulation (Attic or Attic Stair/Hatch Cover)
- Insulation (Ducts/Pipes)
- Insulation (Floor/Basement/Crawl Space)
- Insulation (Walls)
- Air Sealing
- Blower Door Test
- Duct Sealing
- Weather Stripping

### **Have you received a Home Energy Assessment (energy audit) in the last 3 years (recommended)?\***

- Yes
- No

### **Primary heating fuel:\***

-- Select One --

If Natural Gas, then customer must apply for a weatherization rebate through MassSave® not the WMLP.

### **Total project cost of weatherization service(s) eligible for the rebate:\***

\*National Grid (gas) customers, regardless of how the gas is used, must first seek their weatherization rebate from [MassSave®](#).

---

## **Induction Cooktop/Stove**

Induction cooktops are more energy efficient than electric or gas because with gas and electric ranges, a lot of energy is lost to the heating element and to the air around the pots and pans. With induction, only the cookware heats, which ultimately translates to energy and cost-savings.

Limit - 1 rebate per customer account every 10 calendar years

### **Induction Cooktop/Stove Rebate - Choose One**

- \$100 if replacing conventional electric stove or if new installation
- \$500 if replacing propane stove

\*National Grid customers who are replacing their gas stoves are not eligible for this WMLP rebate and should instead get their rebate from [MassSave®](#).

---

## **Level 2 EV Charger**

To receive a rebate for an EV charger, customer **must enroll in the Bring Your Own Charger (BYOC) Program**. Program participants receive a \$10 credit on their electric bill each month. **The qualifying equipment must be permanently installed at the account's service address. Temporary, mobile, or portable equipment are not eligible for this rebate.**

Limit - 2 rebates per customer account every 10 calendar years.

[Click to enroll in BYOC](#)

### **Level 2 EV Charger Rebate**

- \$125

## **Smart Thermostat**

One of the easiest ways for you to lower your energy costs is to program your thermostat around your schedule. EnergyStar® certified Smart Thermostats only.

Limit - 5 rebates per customer account every 10 calendar years.

### **Smart Thermostat Rebate**

- \$100 per EnergyStar® certified Smart Thermostat permanently installed in your home

---

### **Equipment Brand/Manufacturer and Model Number(s)\***

### **Copy of Receipt or Invoice\***

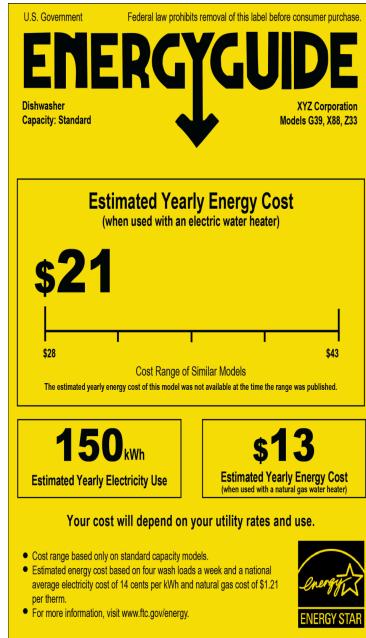

No file chosen

Upload a copy or photo of your sales receipt or (contractor) invoice that must clearly show the purchase price and date and except for weatherization, the equipment brand/manufacturer and model number(s). If a contractor's invoice is being provided for a rebate other than weatherization, it must clearly show the equipment information and cost separately (from the installation and other costs).

Rebate will not exceed the purchase price (or for weatherization, 50% of the total project cost) up to the maximum rebate amount specified above.

**Energy Guide Label\***

No file chosen  
Upload a copy or photo of the Energy Guide label (the bright yellow label or sticker affixed to your new heat pump clothes dryer or water heater. Energy Guide must show the EnergyStar® logo.

**Notes to the WMLP**

## **Rebate Eligibility Requirements**

1. Rebate application must be submitted within six (6) months of equipment purchase or weatherization installation.
2. Customer must have an active electric account in good standing with the WMLP (at least 6 months of satisfactory payments with no past due balance at time of application) on the residential service rate. Newer customers who have less than 6 months of satisfactory payment history with the WMLP may provide a letter or copy of bill statements from their previous electric utility. The qualifying equipment/service must be permanently installed at the account's service address. Temporary, mobile, or portable equipment are not eligible for the rebates.
3. Only new equipment is eligible for the rebates. Leased equipment and equipment included in the purchase of a residence are not eligible for the rebates.
4. New construction projects are ineligible for WMLP rebates, including new additions and major or gut renovations where the equipment is needed to comply with the current building code.
5. Proof of Purchase must be provided to WMLP in the form of a copy or photo of the sales receipt or invoice that must show the purchase date and price, store or contractor name, and except for weatherization, the equipment brand/manufacturer and model number(s). If a contractor invoice is being provided for a rebate other than weatherization, it must clearly show the equipment information and cost separately (from the installation and other costs).
6. Customers are subject to the rebate limits (frequency and amounts) specified above for each equipment/service type.
7. Where applicable, new equipment must be EnergyStar® certified. A copy of the yellow Energy Guide label showing the Energy Star® logo is required.
8. WMLP reserves the right to verify installation of each item (and if applicable, conversion or replacement of the old item) for which a rebate is requested.
9. WMLP reserves the right to modify or terminate these rebates at any time.
10. WMLP rebate will not include any sales tax paid, installation costs (except for weatherization), and exceed the purchase price.
11. The WMLP will issue the rebate in the form of a check mailed to the customer's mailing address on record. Please allow 4 to 6 weeks for processing.
