Wilderness Studios

Instructor: CinemaKidz

Step into the wild and become the star of your very own reality TV adventure! In this high-octane course, you'll transform into a wilderness expert as you master the secrets of building secret shelters, lighting fires (Using AI!), map making, orienteering, and navigating the great outdoors. But there's a twist—you aren't just surviving; you're filming the whole thing! From dreaming up a fearless "survivor persona" to designing an original game show structure, you'll use cameras, green screens, local outdoor locations, and editing gear to produce a thrilling action-packed show. Whether you're conquering rugged team challenges or adding epic effects in the editing suite, you'll learn exactly what it takes to bring a survival story to life from start to finish.

Cosmic Space Robots

Instructor: RoboThink

In Cosmic Space Robots, students embark on an exciting journey through space as they learn about planets, orbits, and real-life space exploration. Using gears, axles, motors, and RoboThink's proprietary hardware, they'll construct satellites, spaceships, and even an alien craft! Plus, just like students around the world named NASA's Mars rovers, they'll get to name one of their own robots. No experience necessary—just say goodbye to Earth and prepare for liftoff!
